INTEGRATED DOCUMENT RECORDING SOLUTIONS

## WHAT WE DO

Since our founding, eRecording Partners Network (ePN) has focused exclusively on overcoming challenges in the document recording industry.

Even with the growth of electronic recording, many in the document recording industry are hampered by small size, specific partnerships and homegrown software solutions, all of which limit their eRecording options. Submitters want to be able to communicate with any county in their region, and jurisdictions want to be able to receive documents from all legitimate submitters.

We make this possible, but go one step further with best-in-breed software integration and highly experienced and helpful staff members.

“

*“ePN has gone and continues to go the extra mile in the service it has provided.”*

ePN offers a variety of recording solutions designed to meet the needs of title agents, settlement providers, attorneys and other document submitters. With our range of services, we can offer document recording in all jurisdictions across the country.

## BENEFITS

- **Unique Integration Features**
- **ALTA Best Practices Supporter**
- **Actual Fees vs. Collected Fees Reporting**
- **No Software Installation**
- **No Startup or Annual Costs**

## SOLUTIONS

- **Traditional eRecording Solution**

eCourier is our web-based submitter application which can be used by your employees to submit documents for eRecording. This solution includes our integration with several title production systems including RamQuest, SoftPro, ResWare, GreenFolders, Closers' Choice and Landtech.

- **Outsourced eRecording Solution**

ePN will handle the submission of your electronic recordings if your staff is limited or you are looking to focus their efforts on other parts of the post-closing process.

- **Paper Processing Solution**

If you work with counties that aren't accepting electronic documents, ePN can help. We can handle the delivery, tracking and confirmation of paper-based recordings.

- **Integrated Recording Solution**

ePN is proud to offer the industry leading integrated document record system. With a single interface, you can track your electronic and paper recordings. With ePN, there is no need to have to look multiple places or combine multiple records to see your entire document recording status.
